

10T Log Splitter (hydraulically operated)

OVERVIEW

The Browns Log Splitter has been produced for use by farmers, contractors or the small holder. The robust construction in addition to the 10 tonne ram means that it can cut through logs 610mm in length with relative ease.

The log splitter conforms to the latest health and safety regulations; two handed lever for operator safety, operator safety guard and the table is provided with an anti-slip surface for additional safety.

FEATURES

- Fits cat 1 and cat 2 linkage
- Can be operated from as little as 20hp
- Operates with 10T of force
- Requires hydraulics of 5gal/min @ 2,500 psi and free flow return
- Hardened splitting wedge for a long working life
- Anti slip surface
- Two handed operation for operator safety
- Operator safety guard
- Can be front mounted to loaders (brackets sold separately)
