Chapel Street, Appleby, Cumbria, CA16 6QR | 017683 51240

H Pigney & Son was founded back in 1824 in the Eden Valley originally starting out as Blacksmiths. The family business has continued to grow and evolve within the local community as tractors and machinery replaced horse power. Now in the 8th generation, the family firm still runs strong and in the last 50 years we have expanded to serve the Horticultural and Forestry industries, as well as having accompanying Petrol Pumps and a Hardware & Ironmongery store.

We have built your one stop shop and pride ourselves upon giving our customers the full experience from knowledgeable sales to quality services and repairs. In Appleby town centre we have a fully stocked showroom of Garden Machinery, tools and all your garden accessories, as well as a comprehensively stocked spare parts department and workshop.

We constantly try to stock the best machinery in the market, which is currently seeing a large surge in battery operated machines and robots. With over 120 Robotic Mowers installed in the Eden Valley already, the Husqvarna automower is one of our strongest sellers. Take peace of mind that buying with us you will be taking home a reliable machine which you can count on us looking after in the future.

Z6 Zero Turn Ride On Lawnmower

The EGO Power+ 42" Z6 Zero Turn Riding Mower is a ZTR like nothing else out there. Featuring Peak Power™+ technology, it can hold up to 6 EGO 56V ARC Lithium™ Batteries – the same battery technology powering all EGO products, making it the World's First Platform Compatible Rider. Delivering 22 horsepower, equivalent to a gas engine, and reaching a top speed of 8 MPH, the Z6 covers up to 2-acres on a single charge with four 10Ah batteries. Fully expandable! Add more batteries to cut 3, 4, 5 or as many acres as needed – unlike any other battery-powered ZTR in the market.

BIG DEAL

All Machines are prepared and ready to go

Hand Propelled 46B-SSE

It features a 46cm strong and durable steel deck and a powerful yet quiet 125cc Briggs & Stratton engine. The 450 E Series engine is best rated in terms of engine power and torque as well as reduced emissions.

The cutting height can be centrally adjusted between six cutting positions (20-90mm), which are easy to change and allow you to adjust the cutting height to suit all applications and weather conditions.

S53SPBS

The Smart 53 SPO is the largest in the range, self-propelled and equipped with a 53cm robust steel deck and a generous 70L collection bag. The cutting deck is fitted with special hi-lift blades which give a clean cut and excellent collection. Two levers operate the easy height adjuster with six cutting positions ranging from 28mm to 92cm.

The Future

On enquiry H Pigney and Son's Experienced Technicians would visit your site to make sure the mower would be suitable before sale.

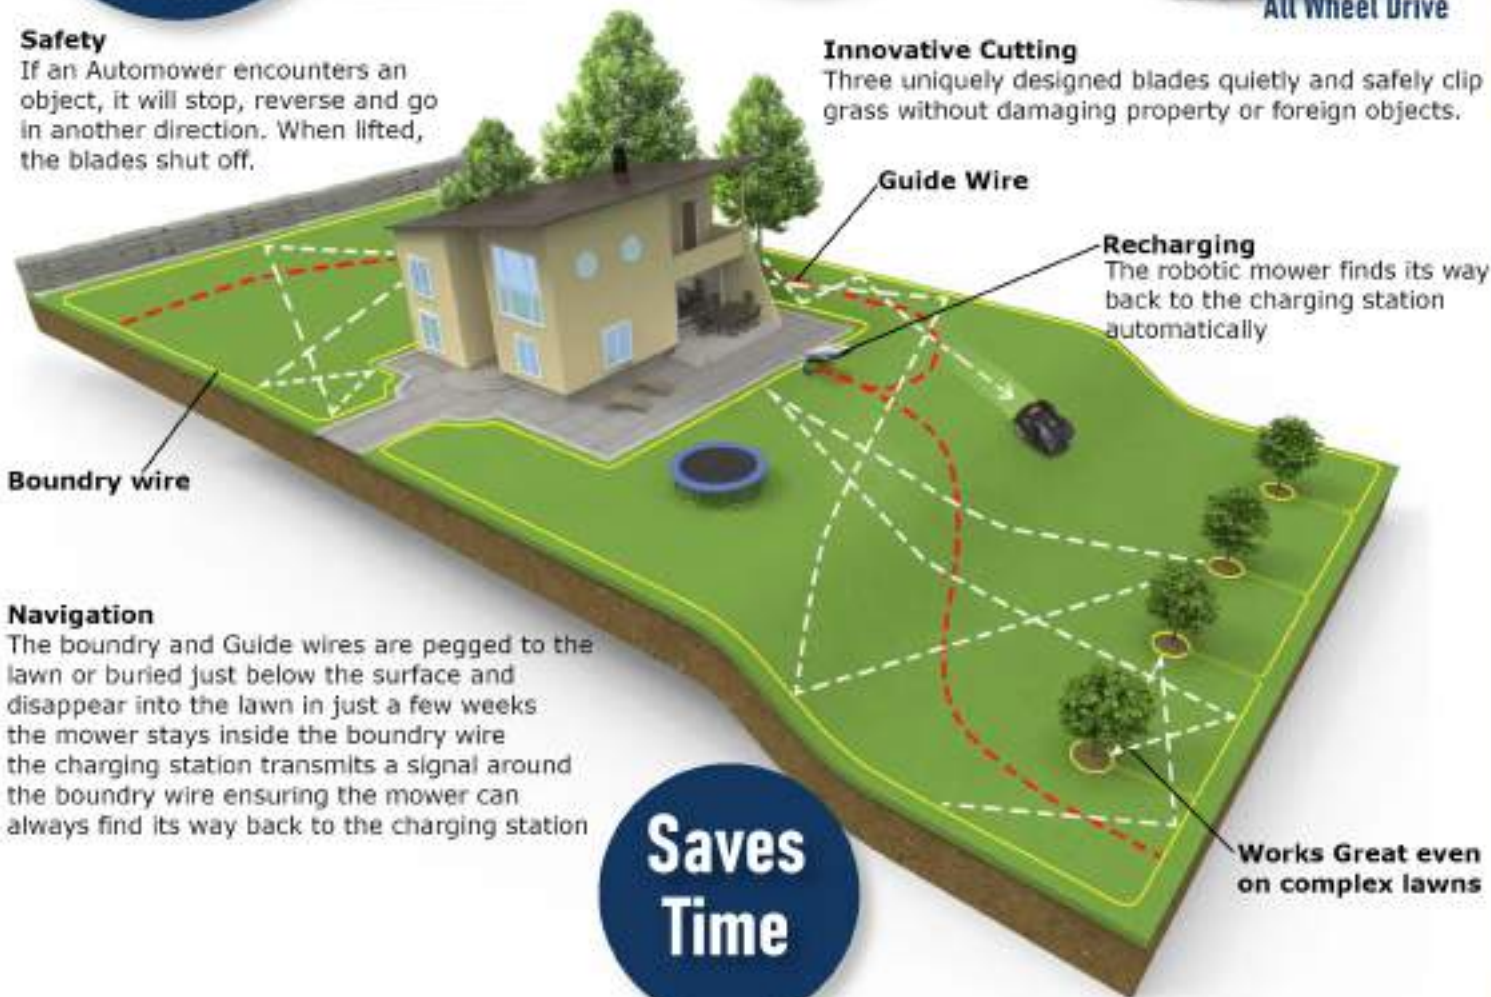

45% →

All Wheel Drive

Safety
If an Automower encounters an object, it will stop, reverse and go in another direction. When lifted, the blades shut off.

Innovative Cutting
Three uniquely designed blades quietly and safely clip grass without damaging property or foreign objects.

Boundary wire

Guide Wire

Recharging
The robotic mower finds its way back to the charging station automatically

Navigation
The boundary and Guide wires are pegged to the lawn or buried just below the surface and disappear into the lawn in just a few weeks the mower stays inside the boundary wire the charging station transmits a signal around the boundary wire ensuring the mower can always find its way back to the charging station

Works Great even on complex lawns

AUTOMOWERS

Husqvarna

Ride on Lawnmowers

We stock a variety of Quality Husqvarna Ride on Lawnmowers. With knowledgeable salesmen and mechanics we can discuss your needs and find the machine for you.

Husqvarna R112C

If you want a real Husqvarna ride-on mower, with its ability to navigate around flowerbeds, bushes, trees and other obstacles on your lawn, but size is one of your main concerns, the Husqvarna R112C rider is the perfect choice. The compact design of this small ride-on mower ensures easy handling even in tight spaces and makes it easy to store. Despite the smaller design of these riders, you'll enjoy excellent traction even in slopes and wet conditions. Articulated steering lets you turn quickly with a minimal turning radius, and the front-mounted cutting deck gives you an excellent overview of the mowing area.

£2499.00

Husqvarna R214TC

A flexible and powerful rider with a high-torque twin-cylinder engine and factory-mounted, 94cm Combi cutting deck, offering first-class BioClip® (mulching) and rear ejection cutting. Suitable for home and landowners who require extra high efficiency, ease of use, superior manoeuvrability and a truly enjoyable ride. Pedal-operated hydrostatic transmission, easy-access controls and automatic blade engagement.

Cutting width, min-max: 94-94 cm
Combi cutting deck with BioClip® (mulching)

For The More Professional Use

Kubota

Kubota Z122r

The ultimate residential lawnmower, The two-lever mode of driving will delight its users with the machine manoeuvrability and responsiveness. Combine comfort and style: Maintain your space comfortably thanks to the wrap-around adjustable seat and a wide footrest. Be +proud of your machine with its robust design and modern look, easy-to-adjust cutting height dial and a 42" cutting deck driven by the 19hp petrol engine. Comes complete with a 2-year/300hr warranty

Kubota GR1600

The GR1600 diesel garden mower outperforms much larger petrol equivalents yet is extremely frugal, reliable and requires little routine maintenance. Features include Kubota's ETVCS diesel engine, shaft-driven HST transmission with single pedal forward/reverse, gas-assist deck lift, easy reach dial type adjustment for cutting height and quick clean deck facility. The GR1600 also has the Glide Cut direct collection system and easy-dump grass collector.

Kubota GR2120S

A powerful and highly durable garden mower with 4WD for heavy use. The GR2120 incorporates the Kubota glide steer system for sharper turns and features easy dial cut height adjustment, hydraulic power steering, hydraulic deck lift and shaft driven hydrostatic transmission.
